* **Business Builder Packages** are available ONE TIME ONLY as a first product order to new distributors, not including the initial \$59.95 purchase of a Member Starter Kit. Must be purchased within 30 days of enrollment. Benefits of the Business Builder packages include :
 Silver Level Bonuses paid to new member for the first 30 days (20% Matching Bonus on all personally sponsored members)
 \$50 Fast Start Bonus paid to sponsor
 \$50 Customer Acquisition Bonus paid to sponsor if sponsor is Retail Qualified

** **Premium Packages** are always available for purchase. When purchased with Member Starter Kit or within 30 days thereafter, the 200 CV meets the one-time qualification to receive full credit for all CV in the member's downline binary. (Premium qualification may be met anytime during the first 30 days, and may be upgraded to by increasing personal CV to 200.) For instance, if a member joins with a "Regular" Package for 100 CV and within 30 days orders an ECO Regular package for another 100CV, the membership would upgrade to Premium. Until this point, the member would be paid as a Regular Member. Note; After the first 30 days the monthly qualifier must be met before the system will upgrade to Premium.

*** **Regular Packages** are also available at any time, and the 100 CV (or PSV - Personal Sales Volume) generated qualifies the member to earn binary pay. However, a Regular member can only earn 100 CV on the sales of each Distributor that joins his or her sales group, even if a downline Distributor buys or sells a Premium Package that carries 200 CV. To earn the full 200 CV on the sale of Premium Packages within the downline, the member must personally generate at least 200 CV in Personal Sales Volume.
